

"Thank you Raul for your thorough inspection of our new home and your professionalism. We will be glad to recommend you to others."

—Carl & Anna, Chase BC

"We need more companies like Clarion Home Inspections that provide services like this, that care about clients and that are professional on the job. Thank you for your services."

-Tom C, Armstrong BC

"My wife and I didn't use Clarion Home Inspections when we bought our house 3 years ago. Man, what a mistake! Raul Poole found serious problems in our attic (that were missed by our inspection company) when he was hired by the people who we going to buy our home. Now the deal is dead and I'm looking at \$10,000 in repairs. Believe me, all home inspectors are not the same. I'd recommend Clarion Home Inspectiions to anyone"

- Daryl B, Sicamous BC

"Clarion Home Inspections did a great job of showing their findings and conclusions. If you're looking for a home inspector, Raul is it!"

- Ken H, Summerland BC

"We recently purchased our first home. We used Clarion Home Inspections and were very pleased with the service we received. We found Raul to be very professional and knowledgeable answering all our questions. The comprehensive report was helpful to us in making our decision to purchase our new home. I will definitely use Clarion Home Inspections again and will recommend them to everyone."

- Sonya and Reg M, Salmon Arm BC

"My experience with Raul as a home inspector was excellent. Clarion Home Inspections handled the inspection of my house with high professional attitude and was always ready to answer my numerous questions even when it meant that they had to stop what they were doing. The fee that was charged was one of the best for my buck. A friend recommended Clarion Home Inspections to me. I will not hesitate to recommend Roger to any of my friends. Clarion Home Inspections is very reliable and dependable."

- William P, 100 Mile House BC

"This is the sixth time we have bought a house, either in BC or Alberta. Raul Poole is by far the best home inspector we've seen yet and the first one who uses an infrared camera. After seeing him work, every home inspector I hire from now on will have an infrared camera as well."

- Bernie & Carol, Revelstoke, BC
